# 9-5 2.3t

2001-2010 MY

220HP/340Nm Performance upgrade

2.0t 27000225 I

The ample low-rpm torque and instant turbo response of the 2.3t engine makes it a favourite among buyers who want a little more than the entry-level 2.0t can offer. These properties are maintained with the Hirsch Performance software upgrade, and further enhanced to provide as much torque as the drivetrain can handle over a wide rpm range, while also adding a clear power improvement in the higher rpm range.
